

# Port Modernization Program – proposed construction schedule

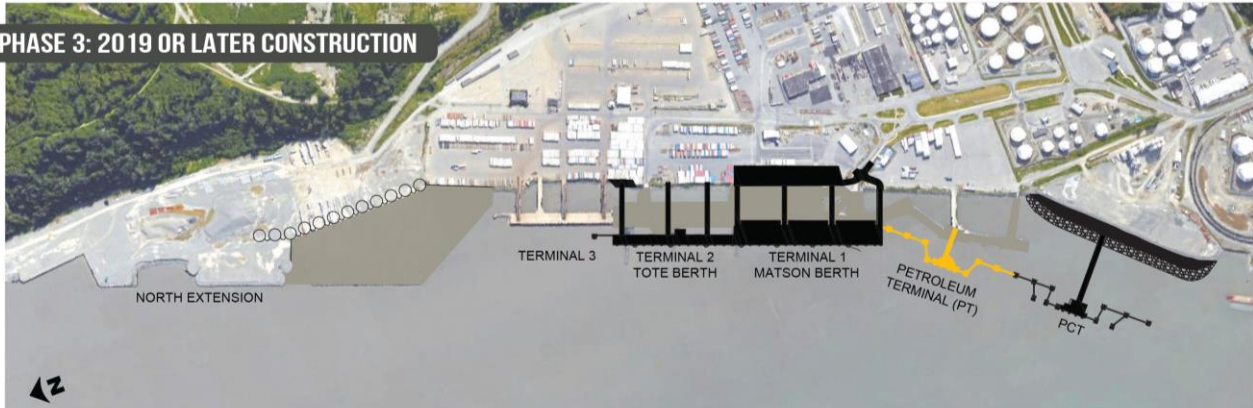

## PHASE 1: 2017-2018 CONSTRUCTION

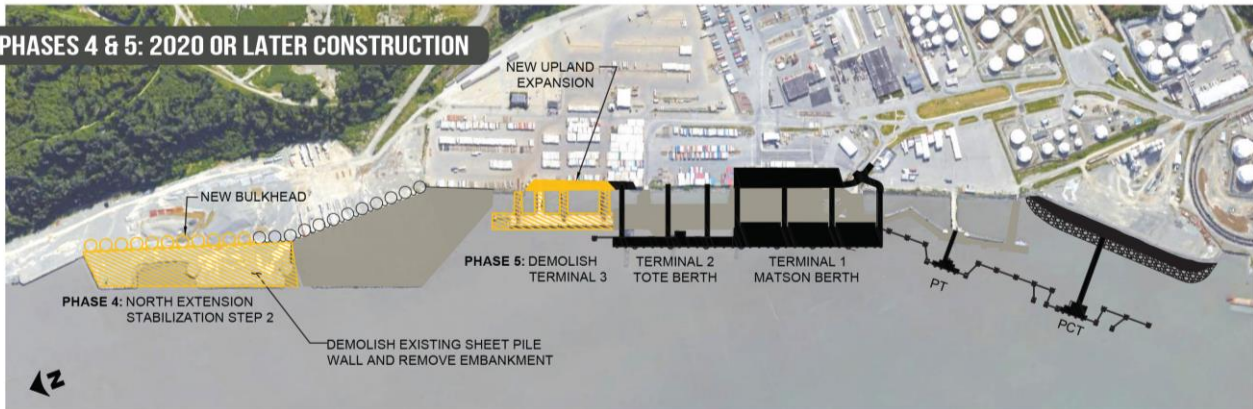

## PHASE 2: 2018-2022 CONSTRUCTION

## PHASE 3: 2019 OR LATER CONSTRUCTION

## PHASES 4 & 5: 2020 OR LATER CONSTRUCTION

Port Modernization Program construction is slated to begin in 2017. Construction will be phased to minimize impacts on Port cargo-handling operations. The project is expected to last seven years and will employ some 300 Alaska workers during peak construction phases. Phase 1 work is fully funded. All remaining project phases are unfunded.
